

FOR DISTRIBUTION TEAMS

Your CRM knows who. Not when.

3 signals that tell you which advisor to call this week. Swipe →

ASSETLINK

02 / 07 · THE PROBLEM

Most outreach runs on the calendar, not the client.

Territory lists get worked top to bottom. The advisors most ready to allocate get the same call as everyone else, often too late.

03 / 07 · SIGNAL 1

Watch what advisors **move**, not just what they hold.

A rebalance away from a category you cover is a reason to call this week, not next quarter.

04 / 07 · SIGNAL 2

Client life events change the conversation.

Retirements, liquidity events and new mandates show up in the signals long before they show up in flows.

05 / 07 · SIGNAL 3

Lead with what each advisor already believes in.

Match your story to their style, past allocations
and the managers they already trust.

06 / 07 · COVERAGE

147K

financial advisors, ranked
by fit and timing for your
products.

07 / 07

Call the **right** **advisor** first.

AssetLink turns these signals into one ranked list
for every wholesaler.
